Wish List Bikers

Wish List Bikers is a registered charity that has been set up by experienced bikers to provide the motorcycling experience to sick and disabled children and adults.

They offer rides to fulfil a wish or dream, reunite ex-bikers with the joys of motorcycling, stimulate memories of times gone by, reduce social isolation or just put a smile on a face.

In particular, they promote feelings of community inclusion and wellbeing through an exciting, sensory experience.

Covid restrictions placed their activities on hold, although they managed short bursts of activity between lockdowns.

Various care homes which they usually visit were unwilling to put their residents at risk – even with reassurances of Covid safety measures and the fact they would be outdoors. This was even after regulations were relaxed.

Being somewhat weather dependent the 2021 season was largely lost, but the organisations wanted to emerge in the Spring 2022 in a position of readiness.

Wish List Bikers applied for funding to cover the £250 for a First Aid Training refresher course for their 10 volunteers. This training is is vital because they deal with sick and disabled adults and children.

By ensuring their training was up to date, they would be ready to hit the road again once the weather to improves, and take their clients out for rides.

This year they aim to complete a minimum of 200 rides. They also want to raise £12,000 in each of the next 3 years to replace their motor trike.
