

Organisation HealthCheck Frequently Asked Question: How do we get started?

1. [Click here to register for the Organisation HealthCheck.](#)
2. **Download the Organisation HealthCheck.** It can be downloaded from the link you will receive when you register. It can be printed out or shared electronically with your colleagues, so that you can work on it together.
3. **RAG rate your organisation against the indicators.** Each of the four sections (Safeguarding, Health and Safety, Recruitment and development and Organisation Management) is made up of a number of indicators to assess yourself against.

RAG rate (Red, Amber, Green) how fully your organisation is addressing each indicator.

Each section also has a free downloadable Resource Pack and every indicator has a brief explanation to support your discussions.

4. **Action plan** Where you identify areas for development you can develop an action plan in order to address the areas for improvement and prioritise the order you will approach them. The Action plan is included with the free complementary resource pack.
